

Q1: Grid Design (Fill in the blank)

Question 1:

Bootstrap is based on a twelve column
design

Q2: Column Class Precedent (Fill in the blank)

When a column class is defined for a block, it will apply to the design size and larger, unless otherwise defined.

```
<div class="row">  
  <div class="col-sm-4">  
    This div will be four columns wide at the  
small size and larger  
  </div>  
  <div class="col-sm-4 col-md-8">  
    This div will be four columns wide at small  
size and eight columns wide at the medium size.  
  </div>  
</div>
```
